Two Course Opportunities

6S'ing your Lab: Starting a lean Manufacturing Process

Craig Picket, CDT – WHIP Mix

1 hour- regulatory credit

This course will offer a start to the Lean Manufacturing Process for the Dental Laboratory by discussing and concentrating on the 6S's;

6S: SORT, STRAIGHTEN, SHINE, STANDARDIZE, SAFETY, SUSTAIN

The area of safety will also include a review of current control standards for the laboratory.

Every Journey begins with a first step. The Lean Process begins with 6!

Making Digital Decisions to make my Laboratory Business Competitive

(With scanner and printer demo)

Craig Nelson, AAS CDT – Kulzer

6 hours credit – Part I & II

No matter the size of dental laboratory, it is necessary to make the best decisions on time and motion, analog or technology to be profitable and compete in the current environment we live in. We will discuss acquisition(scanners) software and additive or subtractive fabrication. Future use of digital technologies and where we can go utilizing CAD/CAM with analog principals.

Sponsored by: Kulzer, Silcox Dental Supply, Whip Mix, and KDLA
